## Electronic

### Multiple Users

Sophisticated user access programming can be achieved by creating multiple users (up to 10) for the Safe. Each user is assigned their own access code.

### Full Audit Trail

Full (Date/Time/User) Audit Trail Log with the last 1000 entries recorded.

### Date/Time Access Control

Users can have specific Date and Time access assigned. E.g. Particular users only allowed to open safe between 9AM - 5PM, Mon - Fri.

### Opening Delay Option

This option means in a duress situation the safe is only able to be opened after a predetermined delay. Delay time counts down on screen.

### Dual (or Tri) Code Entry Access

This option means that 2 users (or 3) need to enter their code to open the safe. E.g. 2 duty managers need to be present when accessing safe.

- Security Safe with Fire Protection
- Triple Walled Body with Stainless Steel Outer Wall
- 3 Sided Locking with Reinforced Locking Bolts
- Thermally Activated Emergency Relock System
- Recommended Insurance Rating: \$18,000\*
- High Security Keyed Version also Available

\*Recommended insurance cover is based on commercial use, for private use this figure increases substantially. Due to different insurance conditions, agreement with insurance company is needed.

## Keyed

### TRS-22 Keying System

The 10 lever patented TRS-22 Keying System gives the ability to easily 'Re-Key' the safe. This allows multiple safes to be configured to operate from the same key.
